

Chapter 15.06

Septic Tanks

Sections:

15.06.010 Septic tank permits.

15.06.020 Sewer hookup required.

15.06.030 Enforcement.

15.06.010 Septic tank permits. No building, or other City permit, will be issued for a building which is not served by public sewer connection or by a septic tank-type sewer system, approved by the Snohomish Health District. The Snohomish Health District shall issue permits and conduct inspections for septic tank-type systems within the City of Snohomish. (Ord. 1602 (part), 1987)

15.06.020 Sewer hookup required. No septic tank permit will be issued for a building which is situated within two hundred feet of a public sewer which is available and designated as an appropriate connection site by the City. (Ord. 1602 (part), 1987)

15.06.030 Enforcement. The Snohomish Health District shall have enforcement authority within the City of Snohomish to enforce all State of Washington and Snohomish Health District laws and regulations relating to the installation and operation of on-site sewage disposal systems. (Ord. 1602 (part), 1987)
