Community Meeting Announcement For Upcoming 1st & D Traffic Signal Construction Project

You are invited to attend a community meeting regarding an upcoming City project for constructing a traffic signal at the 1st & D intersection. Please join us at this meeting which is scheduled for **6 p.m. Wednesday February 1**, at the Waltz Building located at 116 Avenue B.

This meeting will discuss the details of the project, respond to questions and discuss potential traffic impacts during construction.

The 1st & D intersection is a very busy and important intersection for downtown Snohomish. We are excited to have the opportunity to improve this intersection both logistically and aesthetically as it helps to serve as the gateway to our community for now and the future. Please come and join us.
